Subject: TGTI PSD Application Request for Additional Information

Denise,

Attached is our letter that requests additional technical information to supplement the PSD permit application. As noted in our call on Wednesday, there may be some additional questions or items we need to discuss related to air quality impact analysis and possibly some questions where the PSD permit application BACT analysis for VOCs interfaces with your Section 112(g) case-by-case MACT application regarding emission reduction opportunities. Please let me know if you have any questions or if you would like to schedule a discussion.

I appreciate the productive dialogue we've had so far on your project.
